

Birmingham Women's and Children's NHS Foundation Trust

At a glance...

By your side

Mission

To provide outstanding care and treatment, to share and spread new knowledge and practice, and to always be at the forefront of what is possible.

**Birmingham Women's
and Children's**
NHS Foundation Trust

Our vision

A world-leading team providing world-leading care.

Our goal

The best place to work and be cared for,
where research and innovation thrives, creating a global impact.

Our values

Ambitious, Brave and Compassionate.

Enabled by

Sustainable workforce, digital revolution, new buildings and effective use of resources.

Who are we?

**Birmingham Women's
and Children's**
NHS Foundation Trust

- We are part of the **NHS** (National Health Service), which has provided free healthcare in the UK for 70 years!
- In 2017, Birmingham Children's Hospital and Birmingham Women's Hospital became one institution:
Birmingham Women's and Children's NHS Foundation Trust.
- Ours is the **first** Trust of its kind in the UK to bring together women's and children's care like this.
- We have
 - 2 hospitals with 31 wards and 480 beds in total
 - 1 mental health service for 0-25s (Forward Thinking Birmingham)

Who are we?

- We are not just an NHS Trust, but a **Foundation Trust**. That means we have more independence to make our own decisions about what kind of care we provide and how we spend our money in order to provide it.
- Our income in 2017/18 was £429 million
- That year, it cost **£411 million to run the Trust!**
- **Anyone** who lives in England and is over 10 years old **can become a member** of our Trust and have a say in how it's run.

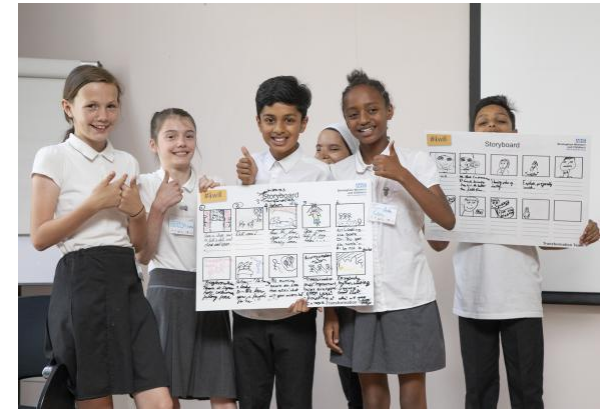

Who works here?

- Our Chief Executive Officer is **Sarah-Jane Marsh**
- Our Trust employs **over 6,000 staff**, all working together to provide the best possible care to thousands of patients each year.
- Some of the best surgeons, doctors, nurses, midwives and other healthcare professionals in the UK, and even in the world work here!
- Around 15% of our workforce are non-healthcare staff: cleaners, IT professionals, cooks, librarians, and many others.

Who works here?

- Around 83% of the people who work for us are female.
- We have **close to 1,000** volunteers who help to make our Trust a better place:
 - Adults and young people
 - In-hospital, at home and elsewhere
 - Long-term and project-based (like you!)

**Over 200
Junior
Volunteers**
aged 10-16
took on
projects for us
between
July 2018 and
April 2019

Who do we help?

- Our patients come from Birmingham, around the UK and **even from other countries!**
- During 2017/18, we had
 - **355,917** times when people came to 'outpatient' appointments (attended and went home)
 - **48,069** times when people were admitted as 'inpatients' (were kept in hospital)
 - **59,564** visits to our Emergency Department

Who do we help?

- We're the **busiest single-site Maternity Unit in the UK!**
 - In 2017/18, we had **8,381 births**
 - We have 17 delivery room beds and 5 Birth Centre beds
 - We also have 41 neonatal cots and look after **9,500 neonatal babies** every year
- We have **74 parent rooms** available so that parents can stay close to their children when they come to hospital
- We have the **largest single Paediatric Intensive Care Unit in the UK** with 31 beds

We did it first...

World firsts:

- We fit a pacemaker into a three-day old baby.
- We separated twins conjoined at the spine.

UK firsts:

- We successfully treated two patients with over 90% burns.
- We did a triple transplant (liver, pancreas and small bowel) for Adele.

Adele Chapman

European firsts:

- We rebuilt a missing section of Rosie's spine with metal rods.

Rosie Davies

NHS firsts:

- We created a *Friends and Family Feedback App*.
- We launched a mental health service for 0-25s.
- We launched a 10-16s volunteering programme!

Welcome to the team

- By volunteering for us, you have become **part of our team!**
- Every one of our Junior Volunteers plays a role in helping us to achieve the **high standards** of care for women, children and families that we're known for.
- **Thank you for your help today!**
